The orders of the 18th Councellor of the 18th May 1899 on the DI's letter No 8941/301 of the 9th idem were communicated to the DI on this office No 13337 D 23rd May/99, ED 294

The enclosure to the present Communication is on reply but it is from the Hd master of the Chickmagalur High school the usual and unusual items of contingent expenditure, the Head master says, cannot be distinguished ~~as such~~ He gives also a sporate list of expenditure incurred on account of Examinations in April last It amounts to Rs 15-6-3

The total Expenditure for contingencies including the amount 15-6-3 for Examinations, comes up to Rs 66-3-8 which exceeds by 11 38 the amount of contingent allowance Rs 55* at the rate of Rs 5 per the 11 Months upto May 1899 To this excess, the expenditure for the rest of the month of June will have to be added, as also the charges for renewing the Straw bed of the Gymnastic class — The DI had recommended only Rs 16-0-0 in his letter of the 9th May 1899 PTO

ES

order No. 13337/ED 294 dated 23rd May 1899, asks for a distinction to be made between "the usual items and the unusual or unforeseen" But no item can be considered such, unless the expenditure due to the gradual and natural growth of the institution be viewed in that light. The larger the number of boys the greater is the consumption of paper, ink &c in the Examinations The following Table will bear out this Statement.—

Year	Number of Boys	Expenditure under contingencies		
1895-96	about 196	Rs 58	7	4
1896 97	" 243	" 65	10	9
1897 98	" 267	" 83	5	11
1898 99	" 286			

for the year 1898-99, it is expected that, omitting the items noted below, the figure would be about Rs 72/- as it will be seen from the account Submitted, no more than a—1—6 has been spent, out of the contingencies upon the Science Laboratory which requires at least Rs 18 a year To add to this, Government has had to bear for the introduction of the less Satisfactory System of oral Examinations in place of written ones in some of the classes If these usual items had been provided for, the figure for 1898-99 would have risen to about Rs 100— without taking into account the expenses

of the Gymnastic class throughout the year which would have raised the amount to over Rs 110 The curtailment of expenditure on these heads tells not a little upon the work of the School Without such minor articles as towels, candles, oil, matches, sand paper &c, no efficient work is possible in the Science class Without a bell, absolutely no use can be made of the gymnastic apparatus by the boys especially the beginners In the Gymnastic class nothing more than simple drill lessons can be given at present Lastly frequent written Examinations, so necessary for young men cannot be held – for want of paper The grant of Rs 5 per annum was sanctioned when the School had a hundred and odd boys, when there was no regular Gymnastic class and when the Science Laboratory had not been fully equipped And it is hardly possible that the same sum should cover the expenses of the School now (1) when it is nearly <u>three times</u> as big (2) when with the additional Science apparatus a large number of experiments has to be shown

the more so, because an additional intermediate
High School class has been added, (3) when with the
formation of regular gymnastic classes there is a great
wear and tear of bedding &c and (4) when even
official correspondence has been increasing. Further
the fact cannot be omitted, that articles are sold at
a higher price here than at the other District Head
Quarters. For reasons stated above the undersigned
respectfully begs leave to submit that the ~
raising of the grant to about Rs 12 a month is
necessary for satisfactorily meeting all the contingent
expenses of this School

To

Sir,

The increase for the remaining five High Schools will amount to Rs 180 a year I request that this extra charge may be sanctioned from a saving of Rs 804 in the amount of Rs 2392 provided in the State Fund Budget Estimates of the Education Department for 1901-1902 now before Government This amount was sanctioned by Government Order No 12433-4--Ed 40-96 dated the 17th May 1897 for granting scholarships in the Upper Secondary class which was opened in the Arya Balika Patna Sala At the Class proved a failure the scholarships were withdrawn There is no immediate prospect of the being reopened though the provision has been retained for future use The balance Rs 384 will be amply sufficient for scholarships if the class is recuscitated in future
